## INTRODUCTION

You already know this, but it does bear repeating: your brand needs a Social Media presence. But it does NOT need an arbitrary, random posting calendar full of disconnected, off-message posts or campaigns.

Rather, you need a coherent, branded story telling thread which, at first glance to a new visitor, immediately makes sense and connects to what you stand for, what you're saying, how they can participate and WHY they should invest their valuable time in your brand or project.

Thus, behind every great brand stands valuable and relevant content.

Simply put, by sharing high-quality content, and not “shouting” a “sell, sell, sell” from the digital rooftops, a brand can achieve greater things:

- Trust
- Longevity
- Loyalty
- Participation
- Evangelism

That's where Team McCartney comes in. Read on for granular details on our 4 programs' steps and options including:
